

Year-end Report 1 January 2015 – 31 December 2015

Cantargia AB | 556791-6019

Highlights

Twelve months (1 Jan 2015 – 31 Dec 2015)

- Other operating revenue was KSEK 0 (0).
- Earnings after financial items were KSEK -17,190 (-8,370).
- Earnings per share were approximately SEK -1.27 (-0.62).
- The equity/assets ratio was approximately 89 (20) per cent.

Fourth quarter (1 Oct 2015 – 31 Dec 2015)

- Other operating revenue was KSEK 0 (0).
- Earnings after financial items were KSEK -5,003 (-2,547).
- Earnings per share were approximately SEK -0.37 (-0.19).

Definitions

- Earnings per share: Profit for the period divided by 13,505,874 shares as of 31 December 2015.
- Equity/assets ratio: Equity divided by total capital.
- Figures in parentheses refer to the same period in the previous year.

Significant events in the first quarter

At the beginning of the period Cantargia held an extraordinary general meeting at which a public issue of units prior to the planned listing of the Company on Nasdaq First North Stockholm was approved. The subscription period for the issue ran from 27 January 2015 to 12 February 2015. Subscriptions for SEK 60 million were received, which means that the issue was 136 per cent subscribed, including subscription undertakings. Cantargia raised around SEK 44.1 million before issue costs through the issue and received about 700 new shareholders. In addition to 5,800,000 new shares, 4,350,000 warrants of series TO 3 and 2,900,000 warrants of series TO 4 were issued, which, if fully exercised, would raise a further estimated SEK 55.1 million for Cantargia in spring and autumn 2016.

In the Company's prospectus for the listing on Nasdaq First North Stockholm it was communicated that cofounders Professor Thoas Fioretos and Dr Marcus Järås intended, in view of their long-standing involvement in the Company, to exercise their right to sell up to 20 per cent of their shareholdings in Cantargia, in accordance with their lock-up agreements. In March the Company announced that Professor Fioretos and Dr Järås had completed this transaction, leaving them with shareholdings of around 5.5 per cent. Thoas Fioretos and Marcus Järås have a long-term view on their remaining shareholdings, which are also subject to lock-up agreements expiring 12 months from the first day of trading on Nasdaq First North Stockholm.

In March Cantargia was notified that they had met the requirements for listing on Nasdaq First North Stockholm and received formal approval from Nasdaq. Trading in the Company's shares and warrants of series TO 3 and TO 4 commenced on 17 March 2015.

Significant events in the second quarter

The notice of the Annual General Meeting was published on the Company's website in April. The AGM was held at Medicon Village on 22 May 2015 and a report on the AGM was published on the same day. At the AGM a resolution was adopted authorising the Board of Directors to decide on the issuance of up to 2 million new shares, on one or several occasions, during the period until the next Annual General Meeting.

In May it was announced that the Company had received notice that the European Patent Office (EPO) had issued an "intention to grant" for the patent application concerning IL1RAP as a target molecule for antibody therapy and diagnostics of leukemia.

On 1 June 2015 Lars Thorsson took up the position as Vice President Clinical Development. He had previously worked as Senior Clinical Pharmacology Scientist at Novo Nordisk A/S, where he was responsible for the preparation and implementation of clinical studies in development projects.

In June Cantargia acquired a non-exclusive license from BioWa to use the POTELLIGENT® technology platform for production of the CAN04 drug candidate. BioWa is a wholly owned subsidiary of Kyowa Hakko Kirin Co., Ltd., a leading Japanese pharmaceutical company.

Significant events in the third quarter

At the beginning of July the Company announced that the Company had signed an agreement with Glycotope Biotechnology GmbH for production of the CAN04 drug candidate. Glycotope Biotechnology will be responsible for process development and manufacture in accordance with good manufacturing practices and will produce CAN04 for use in future toxicological studies as well as clinical trials.

In August results from the use of Cantargia's antibodies were published in the respected journal "Proceedings of the National Academy of Sciences of the United States of America (PNAS)". The article, entitled "Antibodies targeting human IL1RAP (IL1R3) show therapeutic effects in xenograft models of acute myeloid leukemia", documents that the Company's antibodies targeted at IL1RAP have a potent antitumour effect in preclinical models of acute myeloid leukemia.

Significant events in the fourth quarter

In October the European Patent Office (EPO) issued an officially approved patent for IL1RAP as target molecule for antibody therapy and diagnostics of leukemia. At the same time as the announcement of the patent approval Cantargia announced that EPO also had issued an intention to grant for the Company's application concerning IL1RAP as a target molecule for antibody therapy and diagnostics of several types of solid tumours.

In the autumn David Liberg took up the position as Vice President Cancer Research. He has previously worked in tumour immunology research and has headed research projects in this field in the pharmaceutical industry.

In November the Company published its choice of primary indications. Clinical development activities will initially be focused on non-small cell lung cancer and pancreatic cancer. The Company also announced that data from the first toxicity study had been obtained. The data showed no indications of toxicity in clinically relevant doses.

In December warrants of series 2010:1 were exercised, resulting in a dilution of around 0.8 per cent for existing shareholders. Following registration with the Swedish Companies Registration Office the total number of outstanding shares is 13,505,874. The share capital is SEK 1,080,469.92.

Significant events after the end of the period

In January 2016 the Company received approval from the European Patent Office for the patent application concerning IL1RAP as a target molecule for antibody therapy and diagnostics of several types of solid tumours. Subsequently Cantargia also received approval in Australia for its patent application for use of IL1RAP as target molecule for antibody treatment of haematological cancer diseases.

In February the Company published information on the investor events that the Company will be participating in in March 2016. CEO Göran Forsberg will be giving presentations at Vator Securities Unicorn Summit in Stockholm on 9 March, at the Sedermeradagen in Lund on 16 March and at Redeye Investor Forum in Gothenburg on 17 March.

CEO Göran Forsberg comments

2015 was a very successful year for Cantargia. Our securities issue and IPO in the spring were oversubscribed, , we received several positive announcements concerning our patent portfolio as well as partnerships with highly regarded companies for the manufacture of our CAN04 drug candidate. Progress on obtaining patent protection is of course vital to the Company's future opportunities to achieve exclusivity for the commercialisation of our research and development.

During the year the Company has formed a management team with extensive experience in different areas of drug development – production, clinical trials, preclinical studies and tumour immunology. Our qualified team gives us the ability to implement a programme that will generate valuable results.

In November we announced, based on the studies conducted in our preclinical programme, that we had chosen non-small cell lung cancer and pancreatic cancer as primary indications on which to focus our clinical development activities. Both these cancer forms have a significant medical need. A majority of patients who develop these diseases also die from the disease. The biology of IL1RAP plays an important role in the development of these diseases. It is our hope that CAN04 will have the effect of blocking the tumor growth. The initial toxicological studies point to a good safety for our CAN04 product candidate.

We attend both local and international conferences and meetings. As our strategy is to find a future partner, it is important to ensure not only that we are visible locally but also attract attention in the international arena. In January we gave a presentation at Biotech Showcase in San Francisco.

Göran Forsberg CEO, Cantargia AB

Cantargia AB

Cantargia was founded in 2009/2010 by Lund University Bioscience AB, Professor Thoas Fioretos, Dr Marcus Järås and Innovagen AB. Cantargia is a biotech company that is developing an antibody-based cancer treatment, which aims to attack cancer cells and arrest the inflammation of the tumour. The original discovery by the research team behind Cantargia was the overexpression of a specific target molecule, interleukin 1 receptor associated protein "IL1RAP", in cancer stem cells in patients with leukemia that is not found in normal stem cells in the bone marrow. In preclinical studies (in vitro and in vivo) the antibody, targeted at IL1RAP, has been shown to have two potential mechanisms of action, which are complementary. The Company has selected a product candidate for future studies in humans and development activities have been focused on non-small cell lung cancer and pancreatic cancer.

Business model

Cantargia's business model is based on seeking partnerships (such as licensing) for CAN04 after "proof of concept" in a clinical study (phase I/IIa) designed to document both safety and initial signals of antitumour effect. Partnerships with established players in the pharmaceutical industry, which have the resources for and experience of major clinical studies, will promote effective and professional development and the launch of pharmaceutical drugs. Cantargia's intention is thus to conduct all development activities, including clinical studies, in-house, and intends to communicate its first clinical results in 2017 and look for partnerships based on these.

Employees

The average number of employees of Cantargia for the period January to December 2015 was 3 (1), including 1 (0) woman.

Share information

Cantargia's shares were listed on Nasdaq First North Stockholm on 17 March 2015, under the ticker "CANTA". At 31 December 2015 the number of shares of Cantargia was 13,505,874 (183,930). At the beginning of the period, 1 October 2015, the number of shares of Cantargia was 13,394,874 (183,930). The average number of shares of Cantargia during the period 1 October 2015 to 31 December 2015 was 13,450,374 (183,930).

Warrants of series TO 1 and TO 2

In October 2014 the Company completed a SEK 6 million debt-for-equity swap. The debt-for-equity swap, which was subject to the same terms as the initial public offering in 2015, involved the issue of 197,366 new units, representing 789,464 shares, 592,098 warrants of series TO 1 and 394,732 warrants of series TO 2. The warrants were issued free of charge. One warrant entitles the holder to subscribe for one new share. The exercise price for warrants of series TO 1 and TO 2 is SEK 7.60 per warrant. Warrants of series TO 1 for the subscription of shares will be exercisable during the period 23 March – 13 April 2016. Warrants of series TO 2 for the subscription of shares will be exercisable during the period 27 September – 18 October 2016. Warrants of series TO 1 and series TO 2 are not traded on Nasdaq First North Stockholm.

Warrants of series TO 3 and TO 4

In connection with the IPO the Company issued (in addition to 5,800,000 shares) 4,350,000 warrants of series TO 3 and 2,900,000 warrants of series TO 4. One warrant entitles the holder to subscribe for one new share. The exercise price for warrants of series TO 3 and TO 4 is SEK 7.60 per warrant. Warrants of series TO 3 for the subscription of shares will be exercisable during the period 23 March – 13 April 2016. The last day of trading in warrants of series TO 3 is expected to be 11 April 2016. Warrants of series TO 4 for the subscription of shares will be exercisable during the period 27 September – 18 October 2016. The last day of trading in warrants of series TO 4 is expected to be 14 October 2016. Warrants of series TO 3 and series TO 4 are traded on Nasdaq First North Stockholm.

Proposed appropriation of earnings

The Board of Directors and Chief Executive Officer propose that no dividend be paid for the financial year 1 January 2015 - 31 December 2015.

Publication of annual report

Cantargia's annual report for the financial year 2015 is planned to be published on the Company's website (www.cantargia.com) in April 2016. As of the financial year 2014 the Company's financial statements have been prepared in accordance with Recommendation "K3" of the Swedish Accounting Standards Board. The Annual General Meeting of the Company is scheduled to be held in Lund on 25 May 2016, 5pm.

Principles for preparation of the year-end report

The financial statements contained in Cantargia's year-end report have been prepared in accordance with the same principles as the last annual report, i.e. in accordance with the Swedish Annual Accounts Act and General Recommendation BFNAR 2012:1 Annual Accounts and Consolidated Financial Statements (K3) of the Swedish Accounting Standards Board.

Examination by auditors

The year-end report has not been examined by the Company's auditors.

Financial calendar

Future financial reports are scheduled for release as follows:

Interim report 1, 2016
 Interim report 2, 2016
 Interim report 3, 2016
 Year-end report for 2016
 Interim report 3, 2016
 Year-1 Mar 2017

Submission of year-end report

Lund, 1 March 2016 Cantargia AB The Board of Directors
