Share based incentive schemes

At the end of 2023, Cantargia had three incentive schemes for senior executives and key personnel of the Company. The incentive schemes have been introduced to provide longerterm incentives for the Company's management and employees and to promote investments in and ownership of the Company's shares.

Incentive scheme

At the Annual General Meeting of the Company on 23 May 2023, it was decided to introduce a variable share-based incentive scheme for 2023, aimed at senior executives and key personnel of the Company, based on the incentive scheme adopted at the 2020 AGM.

The scheme is designed to offer the participants variable long-term remuneration in the form of a group bonus that must be used to acquire shares of the Company. The scheme is based on that or those annual bonus targets which are defined by the Board for the Company, and which refer to the Company's activities, financial key performance indicators and internal processes. Target achievement will be assessed by the Company's Board of Directors in connection with the adoption of the annual report for each year. When the target achievement has been determined by the Board of Directors, the amount due to each participant in the scheme will be paid out, and the participant will then be required to acquire shares as soon as possible. Participants must use the full amount of remuneration received under the scheme to acquire shares of the Company in the stock market. It is the intention of the Board that the scheme be a recurring annual scheme.

For further information about the scheme, see Note 19.

Employee Stock Option Scheme 2020/2023

At the Annual General Meeting on 27 May 2020, it was resolved to introduce Employee Stock Option Scheme 2020/2023 for employees of the Company, comprising not more than 1,900,000 employee stock options. The purpose of the scheme is to enable the Company to retain skilled personnel through a long-term incentive scheme.

The employee stock options will be offered to employees of or consultants to the Company and will be granted to the participants free of charge. The employee stock options have a three-year vesting period (1/3 per year) calculated from the grant date, provided, with the usual exceptions, that the participant is still employed by or otherwise engaged in the Company and that the participant has not terminated his or her employment or engagement in the Company as at the vesting date. Once vested, the employee stock options can be exercised over a two-year period.

Each vested employee stock option entitles the holder the right to purchase 1.2 share of the Company at a predetermined price. The price per share is determined as 150 per cent of the weighted average price of the Company's shares traded on Nasdaq Stockholm during the ten trading days preceding the grant date.

For further information about the scheme, see Note 19.

Employee Stock Option Scheme 2021/2024

At the Annual General Meeting on 26 May 2021, the shareholders approved the introduction of Employee Stock Option Scheme 2021/2024, comprising not more than 3,000,000 employee stock options. The purpose of the scheme is to enable the company to retain skilled personnel through a longterm incentive scheme.

The options will be offered to employees of or consultants to the company and will be allocated to the participants free of charge. The options have a three-year vesting period from the date of allocation, provided, with the usual exceptions, that the participant remains an employee of or continues to provide services to Cantargia. Once vested, the options can be exercised during a two-year period.

Each vested option gives the holder the right to purchase 1.2 share of the company at a pre-defined price. The price per share will be determined as 150 percent of the volume weighted average price of the company's shares traded on Nasdaq Stockholm during the ten trading days preceding the allocation date.

For further information about the scheme, see Note 19.

Employee Stock Option Scheme 2021/2024

At the Annual General Meeting on 23 May 2023, the shareholders approved the introduction of Employee Stock Option Scheme 2023/2026, comprising not more than 3,000,000 employee stock options. The purpose of the scheme is to enable the company to retain skilled personnel through a longterm incentive scheme.

The options will be offered to employees of or consultants to the company and will be allocated to the participants free of charge. The options have a three-year vesting period from the date of allocation, provided, with the usual exceptions, that the participant remains an employee of or continues to provide services to Cantargia. Once vested, the options can be exercised during a two-year period.

Each vested option gives the holder the right to purchase one share of the company at a pre-defined price. The price per share will be determined as 130 percent of the volume weighted average price of the company's shares traded on Nasdaq Stockholm during the ten trading days preceding the allocation date.

For further information about the scheme, see Note 19

Dilution

To enable the Company to deliver shares to participants in Employee Stock Option Scheme 2020/2023, 2021/2024 as well as 2023/2026 in a simple and cost-effective manner, the AGM resolved to approve a directed issue of 7,900,000 warrants to the Company (i.e. Cantargia AB (publ)).

If fully exercised, the warrants would dilute the Company's share capital and voting rights by approximately 4.1 per cent.

Internal control in respect of financial reporting

The Board of Directors is responsible for ensuring that Cantargia has good internal control and adequate, formalised procedures for ensuring compliance with adopted principles for financial reporting. The general purpose of the internal control system is to obtain reasonable assurance that the Company's operational strategies and goals are monitored and that the owners' investments are protected. The internal control system should also ensure with a reasonable degree of certainty that the Company's external financial reports are reliable and correct and have been prepared in accordance with generally accepted accounting policies, applicable laws, and regulations as well as other requirements applying to companies listed on Nasdaq Stockholm.

The Company monitors, follows and manages any risks in accordance with a risk management and corporate governance policy that is evaluated on an ongoing basis and adopted annually by the Board of Directors. Cantargia has decided to adopt the COSO¹ framework, which is the most widely accepted internal control framework for financial reporting. The framework consists of five components: control environment, risk assessment, control activities, information and communication, and monitoring.

Control environment and risk assessment

The Board of Directors has adopted several policies, governing documents, and instructions with the aim of creating and maintaining a functioning control environment. This is achieved mainly through the rules of procedure for the Board of Directors, the terms of reference for the Chief Executive Officer, the rules of procedure for the Audit Committee, the instructions for financial reporting, the Company's accounting manual and the authorisation manual. The Company's policies and governing documents are evaluated on an ongoing basis and adopted annually by the Board of Directors. The Board has also established an Audit Committee, which, among other duties, is tasked with monitoring the Company's financial position and the effectiveness of the internal control as well as internal auditing and risk management. Responsibility for the day-to-day internal control activities in respect of financial reporting has been delegated to the Company's Chief Executive Officer.

Cantargia's Board of Directors is also required to carry out an annual risk assessment in respect of strategic, operational, legal, and financial risks to identify potential issues and assess the Company's risk exposure. The Audit Committee is responsible for evaluating the Company's risk situation on an ongoing basis and shall assist the Board by submitting proposals for the management of the Company's financial risk exposure and risk management.

Control environment and risk assessment

The Company's information and communication paths are aimed at ensuring the accuracy of financial reporting and enabling reporting and feedback from the business to the Board and management, for example by ensuring that governing documents in the form of internal policies, guidelines and instructions for financial reporting are made available to and are known by the employees concerned. With regard to external communications, guidelines have been prepared to ensure that the Company meets the relevant disclosure requirements. The CEO is responsible for external communication.

The Board is responsible for control and monitoring of the CEO's risk management activities. This is done through reviews and monitoring of the Company's governing documents related to risk management and, for example, through reviews and assessments by the Board of adopted decisions. The effectiveness of the control activities is evaluated annually, and the results of these evaluations are reported to the Board and Audit Committee.

Monitoring

The CEO ensures that the Board receives regular reports on the results of the risk assessment, identified financial risks and processes, and the development of the Company's business. The Board also follows up the assessment of the internal control system, partly through contacts with the Company's auditor.
